

Individual Pupil Learning Profile

Available from SalesPulse for annual charge of €50 including vat.

The Guidelines for teachers section of the Department of Education website refers to the requirement for “more systematic gathering of information and the development and monitoring of ... an Individual Pupil Learning Profile (IPLP)”

After reviewing the IPLP template produced by the Department of Education and having received input from school principals, SalesPulse have incorporated the IPLP into our Primary Schools Administration system.

You can now fill out a complete Learning Profile for each pupil. This is accessed on the new IPLP tab.

Once the IPLP data is filled in for an individual pupil you can print out their profile. This will include their personal information, their class and all the information filled in on this tab. It will also include all the test results entered for the pupil on their Test Results tab.

Teachers who have access to the system can view and update their pupil’s Learning Profile.

This new IPLP feature is available for €50 per annum. Please contact SalesPulse to get this feature turned on.
